

BeMicron®

⌚ Quick and intuitive

Donned in 30 seconds
without touching the outside

✓ Total safety

Remove any risk of
contamination during
the gowning procedure

📊 Economical

Reduce your costs
whilst increasing your
productivity and quality

Integrated goggles

Introducing an exclusive product

Reusable and washable integrated goggles, with panorama lens for perfect all round vision.

Spend more time in the cleanroom and less time in the changing room. This time saving coupled with a significant reduction in plastic waste and better contamination control while gowning will improve your efficiency !

Our cleanroom integrated goggles are fully cleanroom compliant, lightweight and durable with superior peripheral visibility and compatible with wearers of prescription glasses. They are oversized to let indirect air vents to limit fogging.

BeMicron integrated goggles are available for all our reusable cleanroom garments line.

The doning procedure

①

Out of the bag

②

White = left
Red = right

③

Easy gowning
system

④

Easely
adjustable
