

Elis Cleanroom expands portfolio with BeMicron acquisition

Saint-Cloud, March 03, 2025 – Elis, the international multi-service provider for cleanroom, workwear, hygiene and facility services solutions, today announces the acquisition of 100% of BeMicron a Belgium-based family business which has an accumulated experience for over decades in delivering innovative cleanroom decontamination solutions.

Founded in 2020 by Vincent Vanneste, Thomas Vanneste and Siegfried De Smet, BeMicron provided globally their patented aseptic drop-down gowning system in various designs and the on-premises laundry (OPL) units with RFID based IT solutions for cleanroom operations.

By adding BeMicron to Elis Cleanroom we enlarge our Innovative offering in reusable launderable gowning solutions meeting the demand for the resilient and growing cleanroom industry, helping customers in pharmaceuticals, life sciences, semiconductor and other high-tech industries to meet ever stricter quality and regulatory standards. We welcome an exchange of ideas and expertise with their addition to the Elis Cleanroom group.

Elis Cleanroom is a Contamination Control Partner with innovative propositions combined with stringent traceability compliance and contingency plans with presence in Europe, Latin America and Asia. We build together a profile of your business with a dedicated Elis Cleanroom consultant to understand your needs and the contamination control strategy for your company. Elis Cleanroom solutions for your business include rental of reusable garments, cleaning systems, mats, goggles, footwear, autoclavable bags, covers for equipment all to be monitored with the customer accessible Elis Connect management system.
